BHUSANI LITHIL

Python Full Stack Developer
Secunderabad, Telangana, India | +91-8328286895 | bhusanilithil111@gmail.com
LinkedIn | GitHub

Career Objective

Aspiring Python Full Stack Developer with a focus on frontend development and a foundation in Electronics and Communication Engineering. Eager to apply my skills in Python, Django, Flask, React.js, HTML5, CSS3 and JavaScript to build responsive, user-friendly web applications and to grow within a collaborative engineering team.

Education

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering Graduated 2026
CMR College of Engineering and Technology, Hyderabad, India

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design, UI/UX
Backend: Python, Django, Flask, RESTful APIs
Databases: SQL, MySQL, PostgreSQL
Tools: Git, GitHub, OpenCV, MATLAB
Practices: SDLC, Debugging, Data Structures and Algorithms

Projects

Cardiovascular Disease Detection Interface using ANN | Certificate | Source Code April 2026
Paper presented at ICICT-2026 (9th International Conference on Inventive Computation Technologies), Tribhuvan University, Nepal

- Developed a web interface to display results from ECG image classification performed by an Artificial Neural Network (ANN).
- Designed clean, responsive frontend components to present data metrics clearly.
- Integrated a Python-based ML model with the user interface for end-to-end result display.

Internet of Robotic Things (IoRT) Automation Prototype | Certificate August 2024
Technotran Workshop Project

- Built web-accessible control panels that interface embedded hardware with a responsive system.
- Developed real-time monitoring dashboards to display remote operational status and telemetry updates.

Internship and Training

Graduate Technical Intern, Triad Tech LLP, Hyderabad January 2025 – May 2025

- Implemented firmware, communication protocol and system diagnostics workflows.
- Worked with the engineering team following SDLC practices; debugged and tested diagnostic tools.

Full Stack Python Development Program, Teks Academy, Hyderabad Present

- Training in web application architecture, database design and queries, REST API development and Python scripting.
- Building full stack applications with Django, Flask, React.js and SQL databases.

Soft Skills

Technical Communication | Analytical Problem-Solving | Collaborative Teamwork | Adaptability
